

Air-Conditioning Units – Program List

No.	Description	
11	4-Pipe returned air	Temperature control
12	4-Pipe returned air	Temperature control with economizer
13	4-Pipe returned air	Temperature and pressure control by VSD
14	4-Pipe returned air	Temperature and pressure control by VSD and economizer
15	4-Pipe returned air	Temperature control with 2 backup heating elements
16	4-Pipe returned air	Temperature control with 3 backup heating elements
19	4-Pipe returned air	Temperature and humidity control with humidifier
23	4-Pipe returned air	Temperature and pressure control by returned air damper
29	4-Pipe returned air	Temperature and humidity drying control
31	4-Pipe supply air	Temperature control
32	4-Pipe supply air	Temperature control with economizer
33	4-Pipe supply air	Temperature and pressure control by VSD
34	4-Pipe supply air	Temperature and pressure control by VSD and economizer
35	4-Pipe supply air	Temperature control with 2 backup heating elements
36	4-Pipe supply air	Temperature control with 3 backup heating elements
39	4-Pipe supply air	Temperature and humidity control with humidifier
51	2-Pipe returned air	Temperature control
52	2-Pipe returned air	Temperature control with economizer
53	2-Pipe returned air	Temperature and pressure control by VSD
54	2-Pipe returned air	Temperature and pressure control by VSD and economizer
55	2-Pipe returned air	Temperature control with 2 backup heating elements
56	2-Pipe returned air	Temperature control with 3 backup heating elements
57	2-Pipe returned air	Temperature control by 2 proportional valves with heating element
58	2-Pipe returned air	Temperature control by 2 proportional valves with 2 heating elements
61	2-Pipe returned air	Temperature control with 1 analog and 3 digital heating elements
62	2-Pipe returned air	Temperature control with 1 analog and 3 digital heating elements with economizer
63	2-Pipe returned air	Temperature control with 1 analog and 3 digital heating elements and pressure control by VSD
64	2-Pipe returned air	Temperature control with 1 analog and 3 digital heating elements and economizer and pressure control by VSD
65	2-Pipe returned air	Temperature control with 2 digital heating elements
66	2-Pipe returned air	Temperature control with 3 digital heating elements
69	2-Pipe returned air	Temperature control with 1 analog and 3 digital heating elements and humidity control with humidifier

No.	Description	
71	4-Pipe supply air	Temperature control
72	4-Pipe supply air	Temperature control with economizer
73	4-Pipe supply air	Temperature and pressure control by VSD
74	4-Pipe supply air	Temperature and pressure control by VSD and economizer
75	4-Pipe supply air	Temperature control with 2 backup heating elements
76	4-Pipe supply air	Temperature control with 3 backup heating elements
77	4-Pipe supply air	Temperature control by 2 proportional valves with heating element
78	4-Pipe supply air	Temperature control by 2 proportional valves with 2 heating elements
81	4-Pipe supply air	Temperature control with 1 analog and 3 digital heating elements
82	4-Pipe supply air	Temperature control with 1 analog and 3 digital heating elements with economizer
83	4-Pipe supply air	Temperature control with 1 analog and 3 digital heating elements and pressure control by VSD
84	4-Pipe supply air	Temperature control with 1 analog and 3 digital heating elements and economizer and pressure control by VSD
85	4-Pipe supply air	Temperature control with 2 digital heating elements
89	4-Pipe supply air	Temperature control with 3 digital heating elements
